

Annotate. Automate. Integrate.

MANILA, PHILIPPINES

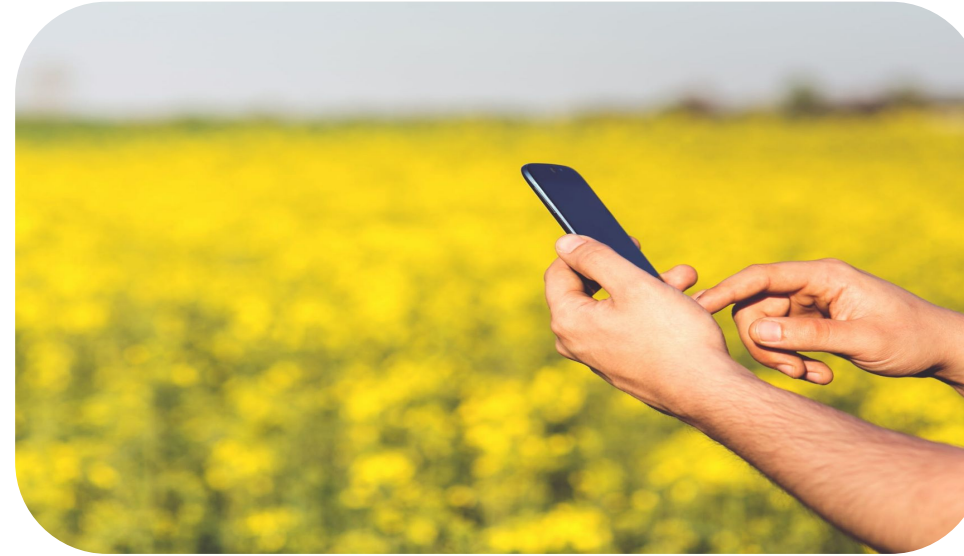

About Us

We are  **CAWIL.ai**

Artificial Intelligence for the **Environment**

Environmental monitoring
and management utilizing
images and videos

Reliable and unbiased data analytics

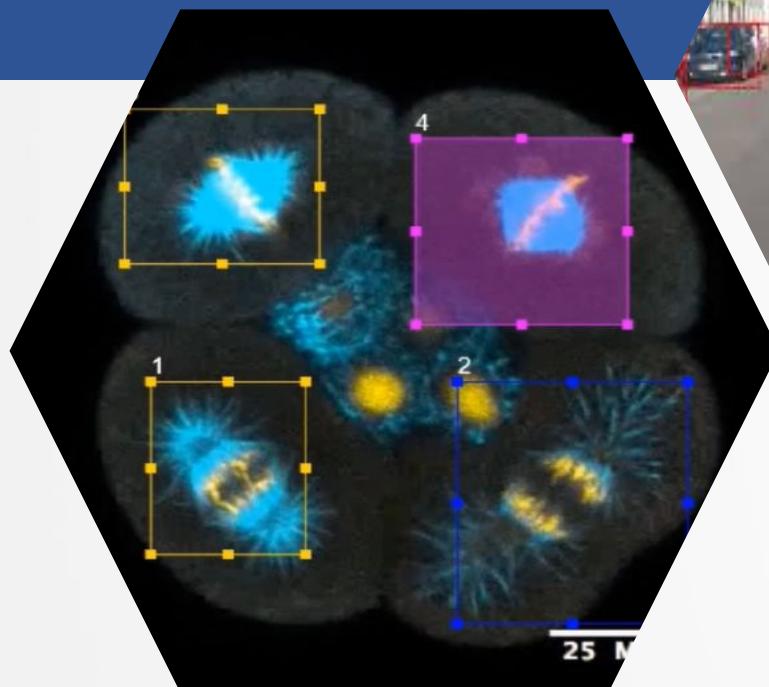

Cross-platform data
collection which
eliminates biases and
erroneous data

Deliver Impact through **Sustainable Goals**

Provides solutions for
UNDP Sustainable Goals

Redundancy of AI tools

Challenges in AI

Gap in AI Advancement
for the most essential application
(autonomous and medical datasets)

**CAWIL.AI Customized
Data Labeling App**

Mobile Integration

**Autonomous
Application**

Intersection of Capabilities

Market Size

The “AI and IoT” market is growing exponentially with a **>44% CAGR in the next 5 years.**

\$16.2B

AI and IoT

TAM

\$450M

APAC

SAM

CAWIL.AI
\$22M
5% of APAC

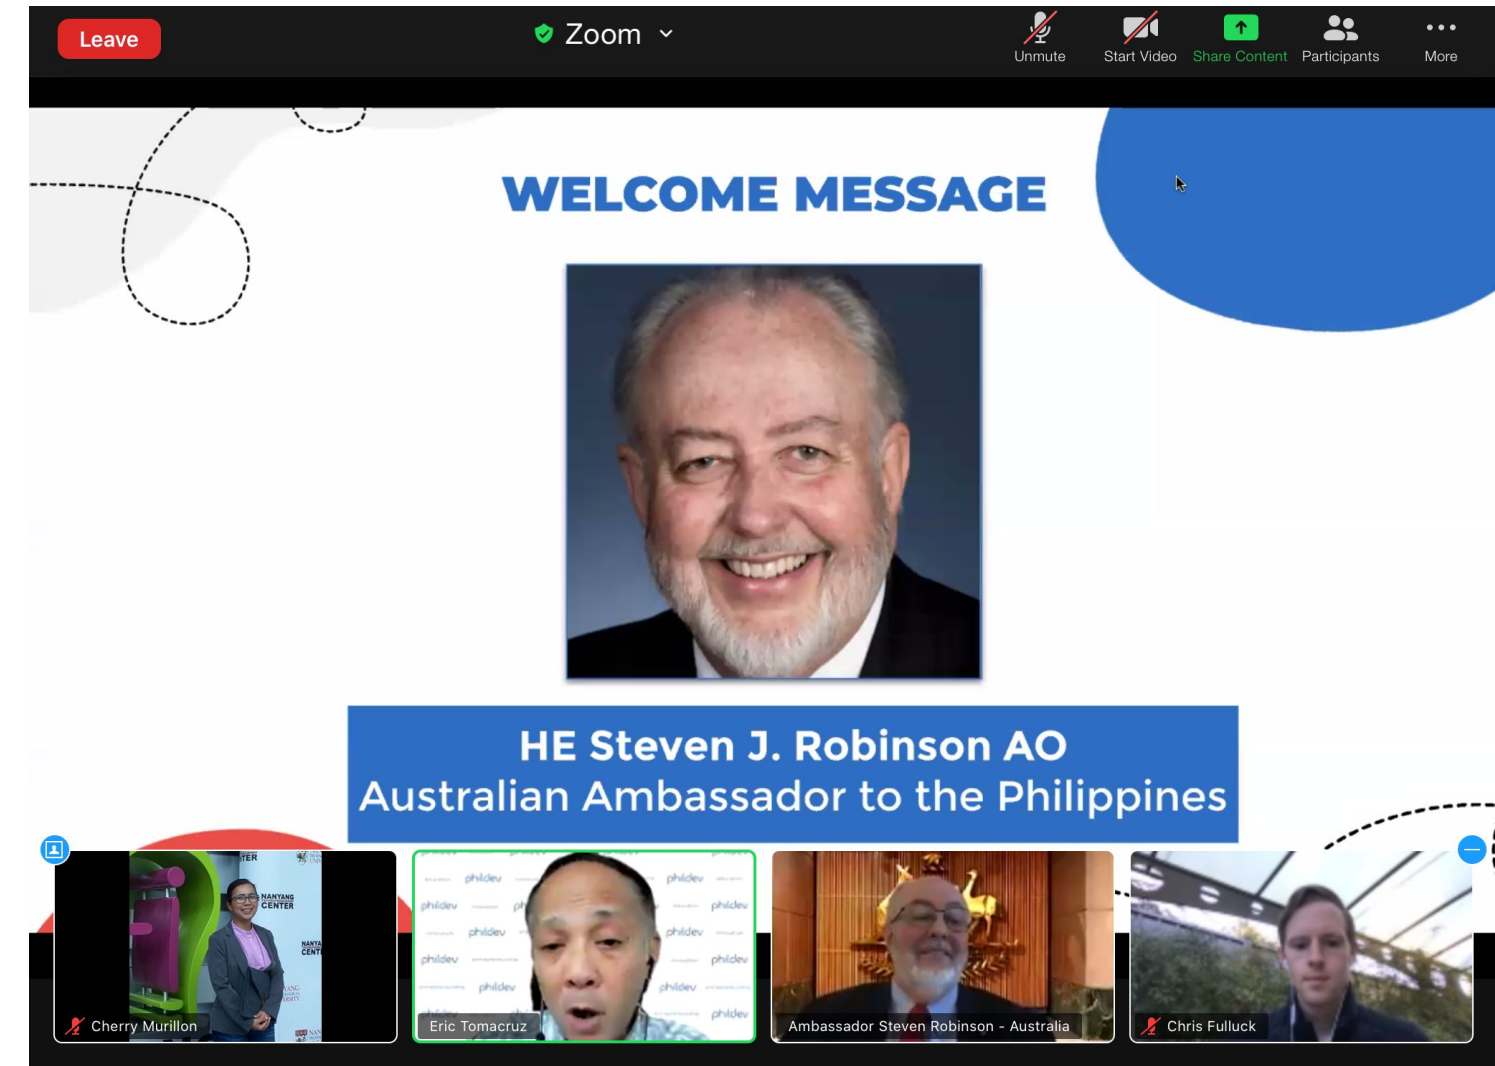

SOM

We will take at least

5% of APAC region.

Launch of CAWIL.AI and Pilot Project on **AI Data Labeling Skills Training** through the Support of Australia Alumni Grant Scheme 2020

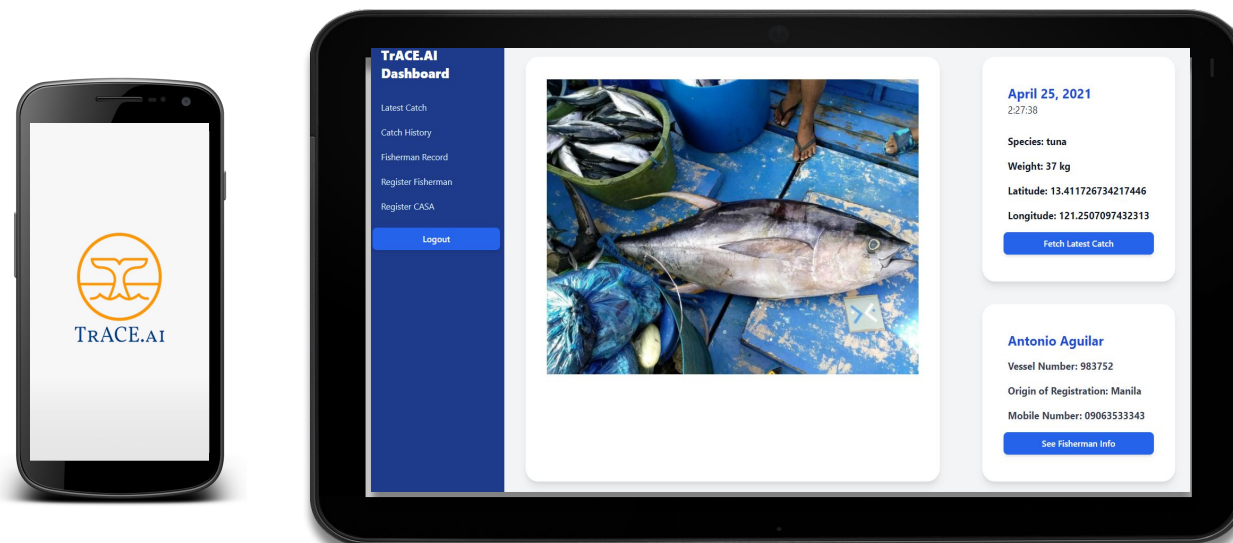

2020 Innovation Solutions Grant Facility for the COVID-Response solution funded by Australia Aid, UNDP through the initiative of PhilDev and ISIP
Realtime Contact Tracing & PPE Monitoring Powered by AI

TRACE.AI

DOST Startup Grant Fund Program
Supply Chain and Logistics Priority Area

SEAFOOD SMART SOFTWARE SYSTEM
USD60,000

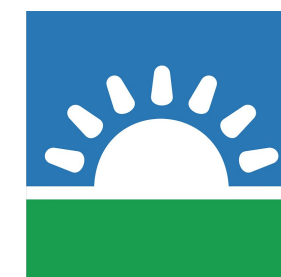

Corporate Engagement

Other Web and Mobile Services

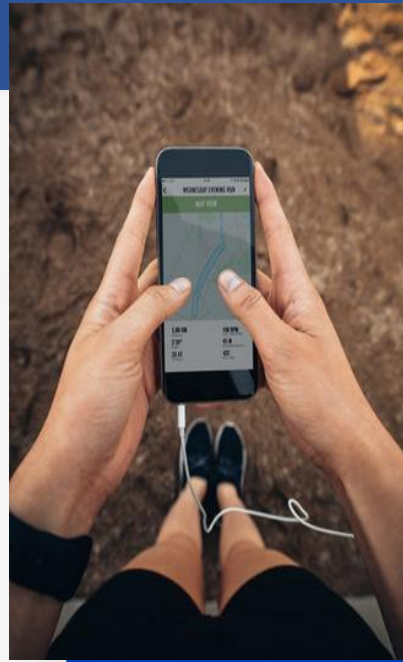

USD20,000

- Property Management Tools & Subscription
 - Mobile Application Development
 - AI and Data Analytics Subscription

Empire East

Go-To-Market

COMMUNITY DEVELOPMENT THROUGH AI-ENABLED TOOLS

Mobile and Web Application for Smart Cities

MANUFACTURING AND INDUSTRY

Automation System for Industry 4.0

FUTURE OF WORK

Crowdsourcing Online Jobs

TECHNOLOGY AND DEVELOPMENT SUPPORT

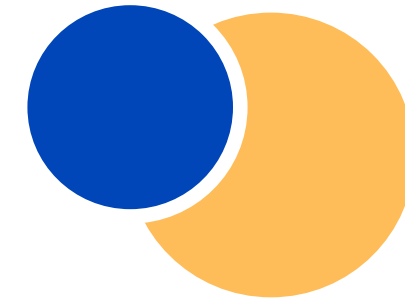

**Create a database
system for data training
and management**

Improved data system and
management will help
increase the AI's accuracy

**Simplify hardware and
software**

Interoperability is the key to
make AI cheaper and
provide value to the less
capable region and
community

**Research integration
and Funding**

Highly funded AI research
focuses on sustainability
and MSME that are
supported by big industry
partners to eliminate silos

Insights

Artificial Intelligence (AI) and
IoT Market \$16.2B

Accelerate Innovation and
Market opportunities through AI

Co-creation and Collaboration
with Private Companies
